Centrifugal 2500 PUMP

About us

Pinnacle-Flo, Inc. is a leading supplier of centrifugal pumps and accessories. Our premium products have been widely accepted in various industries which include oil-gas exploration, petro-chemical, mining, water and waste water treatment, and flood control. We have been continuously increasing our portfolio of centrifugal pumps and parts to our customers. We also provide comprehensive supply chain services through our strategic domestic and international distribution service centers.

Centrifugal 2500

The centrifugal pump has an open impeller design that contains wide-tipped vanes and a more tangential circumference of the suction allowing the pump to create a smoother flow pattern when handling abrasive fluids.

Features

- 100% interchangeability with leading brands
- Versatile stuffing box
- Thick, strong, concentric casing with replaceable casing wear pad
- Casing gasket receded for protection.
- Replaceable stuffing box cover with dual stuffing box bolts
- Type I Tungsten vs. Tungsten mechanical seal
- Optional stuffing-box available for single and double mechanical seal applications.
- Replaceable coded and non-coded shaft sleeve preventing shaft wear
- Solid Frame base
- Labyrinth seals for maximum bearing protection; Lip seals are recommended for oil-lubricated pumps.
- Duplex angular contact bearings eliminates shaft end play and increase bearing and seal life.
- Wide semi-open impeller creates lower axial thrust for improved bearing life
- Identical power end for all available sizes

Specifications

Sizes: 3x2x13, 4x3x13, 6x5x11, 6x5x14, 8x6x11, 8x6x14, 10x8x14
Flow rates: up to 2,600 GPM
Head pressure: up to 550 feet
Best utilized for applications requiring up to 200 HP

Applications

1. Oil well drilling
2. Charge pump
3. Blender
4. Pulp & paper
5. Primary metals
6. Municipal sewage treatment
7. Chemical process industry
